01 Project Overview

Lakeview Retail wants to modernise its online store to increase conversion and give customers a fast, reliable mobile experience.

Northwind Digital Studio proposes a full redesign of the storefront, a new headless commerce back end, and a companion mobile app for iOS and Android, delivered in four focused phases.

02 Scope of Work

- ✓ User research and competitor audit
- ✓ UX flows, wireframes and a design system
- ✓ Responsive storefront built with Next.js
- ✓ Headless commerce API with inventory and order management
- ✓ Payment gateway and shipping integrations
- ✓ Native-feeling mobile app (iOS and Android)
- ✓ Analytics dashboard and SEO setup
- ✓ Training and 60 days of post-launch support
